

Winestra Series

IGEL presents the classic among the IGEL Clever Clients in a new, appealing look: the IGEL Winestra Series. This particularly flexible and versatile Client can be integrated into any existing IT environment with no difficulty. It is the universal desktop. Whether in a Microsoft server environment, in collaboration with a Citrix Metaframe, or as a terminal in a mid-range or mainframe environment, the IGEL Winestra always delivers outstanding performance.

Advantages:

- Can be used in heterogeneous networks
- Flexible expansion is possible by means of additional hardware
- Multi-platform compatibility as a result of the supported protocols
- A wide array of different interfaces for flexible matching

Key Features:

- 533 MHz VIA C3 Eden CPU
- 64 MB RAM, resp. 128 MB for the IGEL-464
- IGEL Embedded Flash Linux operating system
- Up-to-date Citrix ICA and Windows RDP Linux clients and CE clients
- Extended Citrix Program Neighborhood functionality
- Powerterm Emulation Suite, IGEL-464 LX Winestra
- ThinPrint Client for bandwidth optimised printing
- Integrated PCI-Slot supporting WLAN, ISDN, DSL and Token Ring cards

The series includes the following models:

- IGEL-432 LX Winestra
- IGEL-464 LX Winestra

The resistant metal casing is available in black, PC-grey or bicolor silver-grey metallic.
